Revo Flex

Four side trim function and fully automatic double-sided lamination.

Join the **Revo Revolution** with the all new **Revo Flex** fully automatic laminator.

The **Revo Flex** 4 side trimming system allows for true flush cuts or encapsulating a sheet with lamination. The position of the cuts are fully adjustable to create perfect flush cuts or custom size encapsulation borders. No need for additional processing to trim all 4 sides of a sheet. Feeding, laminating, cutting and trimming are now fully automated with the press of the start button.

The next generation laminating system.

New Various Run Modes
to reduce or eliminate trimming waste. 70% less trim waste than other systems even when running in full trim mode. No waste mode totally eliminates between the sheet trim when encapsulating sheets.

Reliable Feeding System
with adjustable resist roller pressure to stop multi- sheet feeds over a range of paper stocks from 16lb bond to 130lb cover weight.

Adjustable Speed
from 27.5 -78.8 inches per minute allowing you to create perfect dwell time for your particular sheet weight and film thickness.

Easy to Use Touch Panel
puts all user adjustments at your fingertips like setting trim margins, adjusting speed, setting temperature, and other controls.
